

IMPRESSA X9

DAILY CAPPUCCINO CLEANING INSTRUCTIONS

1. To run Cappuccino clean, open the door by pressing the pushbutton on the side of the door
NOTE: CAPPUCCINO CLEAN HAS TO BE PERFORMED EVERY DAY WHEN MACHINE IS BEING USED

2. Press the **CLEAN CAPPUCCINO** button, machine displays "**CLEAN CAPPUCCINO START YES**"
Press cappuccino button to confirm

3. Machine displays "**CLEANER FOR CAPPUCCINO**"
Fill 1 capful of the milk frother cleaner and pour into a glass of water

4. Once solution has been made, take milk tubes and place them into cup with solution. Then press **CAPPUCCINO CLEAN** button to confirm clean.
This process takes approximately 2 minutes

5. Place container underneath milk spout to catch any water residue during the clean.

6. After machine runs clean with solution, machine displays "**WATER FOR CAPPUCCINO**". Place the milk tubes in a cup of **WATER ONLY** and press **CLEAN CAPPUCCINO** key to confirm the clean. Once the cappuccino clean finishes, empty the container and then the machine is ready to use.
